Coderscave

Web Development Intern

Jul 2023 – Aug 2023

- Developed front-end websites using programming languages like HTML, CSS and JavaScript.
- Implemented and improved my skills by designing and deploying unique projects.

Projects

Code Editor

- A text editor program designed specifically for editing source code of computer languages like HTML, CSS and JavaScript in order to achieve the desired output.
- Github repository: <https://github.com/Stuti-Das/Code-Editor>

Quote Generator

- This web app is developed and designed using HTML, CSS and JavaScript with API integration as a part of the CodersCave internship(phase 1).
- It generates random quotes each time the New Quote button is clicked.
- The quotes can be converted to speech, copied to clipboard and shared on Twitter.
- Github repository: https://github.com/Stuti-Das/CVIP-Web_Development_phase1/tree/main

File Converter

- This web app is developed and designed using HTML, CSS and JavaScript as a part of the Web Development internship(phase 1)
- It creates and saves plain text as different file formats like .text, .html, .ppt, .doc, etc.
- Github repository: https://github.com/Stuti-Das/CVIP-Web_Development_phase1/tree/main/File-Converter
